15 homemade recipes to bring more flavour to your meals

About this booklet

A homemade sauce can change the texture and flavour of a meal without calling for complicated techniques. This booklet offers citrusy, creamy, herby, spicy and bold options — all made with simple ingredients and no added sugar.

These recipes go well with salads, roasted vegetables, eggs, meat, poultry, fish or vegetarian dishes. Adjust the salt, acidity and consistency a little at a time: ingredients such as lemon, mustard, cheese and pickled or preserved ingredients can vary in intensity from brand to brand.

BEFORE YOU BEGIN

- Choose plain, unsweetened yoghurt, mustard with no added sugar and unsweetened coconut milk. Check the labels on mayonnaise, tamari and sun-dried tomatoes.
- Wash and dry fresh herbs thoroughly. Use clean utensils and containers.
- As these sauces contain fresh ingredients, keep leftovers in a clean, sealed container in the refrigerator at **4 °C or below** and use within **3 days**. Avocado sauce is best used within 2 days.
- Sauces made by mixing garlic or fresh herbs with oil must also be kept refrigerated; do not leave them at room temperature.
- The amount of water listed can be adjusted: add it a little at a time until the desired consistency is reached.

5 minutes

INGREDIENTS

- 60 ml olive oil
- 30 ml lemon or lime juice
- 10 g Dijon mustard with no added sugar
- 15 ml water
- 1 g finely grated lemon zest, optional
- 1 g salt
- Freshly ground black pepper, to taste

PAIRS WITH:

slightly bitter leaves, rocket, cucumber, grilled chicken and boiled eggs.

METHOD

1. Put the lemon juice, mustard, water, salt and pepper in a bowl.

2. Whisk with a fork or small whisk.

3. Slowly drizzle in the olive oil, whisking until the vinaigrette is slightly thickened and smooth. Stir in the zest, if using.

STORAGE:

Keep refrigerated in a sealed container for up to 3 days. Shake before serving.

Avocado, coriander and lime cream

MAKES
about 4 servings

PREPARATION TIME
10 minutes

INGREDIENTS

- 120 g ripe avocado flesh
- 70 g plain full-fat yoghurt, unsweetened
- 25 ml lime juice
- 8 g coriander leaves
- 10 ml olive oil
- 2 g garlic, green germ removed, optional
- 30–60 ml cold water
- 1 g salt

PAIRS WITH:

salads with chicken, prawns, cucumber, cabbage or fresh leaves.

METHOD

1. Put the avocado, yoghurt, lime juice, coriander, olive oil, garlic and salt in a blender or food processor.

2. Blend until creamy. Add the water a little at a time, blending between additions, until it reaches the desired consistency.

3. Taste and adjust the salt or lime. For a smoother sauce, blend for a few more seconds.

STORAGE:

Keep tightly covered and refrigerated for up to 2 days. The lime helps slow browning, but the colour may change naturally.

- 45 g unsweetened tahini
- 25 ml lemon juice
- 60–80 ml cold water

- 1 g salt
- Black pepper, to taste

PAIRS WITH:

roasted cauliflower, broccoli, cucumber, aubergine, chicken or lamb.

METHOD

1. Mix the tahini, lemon juice, olive oil, garlic, salt and pepper. The mixture may thicken at first; this is expected.

2. Add the cold water a little at a time, stirring continuously until the sauce is smooth and creamy.

3. Taste and adjust the lemon or salt. For a thinner sauce, add a little more water.

STORAGE:

Keep refrigerated in a sealed container for up to 3 days. Stir before serving.
